WORLD CONFERENCE IS TOLD THAT COLORED RACE ASKS ONLY CO-OPERATION

Dr. Wm. Bell Of New York In Meeting At Stockholm, Tells Clergymen From Every Nation Stand Of The Colored Man.

STIRS UNIVERSAL BODY

German Delegate Predicts Catastrophe Unless The Church Becomes An Agency Of Reconciliation.

STOCKHOLM, Sweden, Sept. 2—The question of race relations occupied much attention at the Universal Christian Conference on Life Work held here last week. Clergymen who were in attendance from all corners of the earth, discussed the problem from both a national and international standpoint.

Spokesman For Negro

In a forum on the racial question, Dr. William Bell of New York spoke for the colored race. In his speech he declared:

"We are entering upon a new era of racial relations in America. We refused to be considered as an inferior race that cannot be trusted after dark. We do not desire racial amalgamation and are just as anxious to preserve our racial integrity. We ask only mutual cooperation. The Conference was much moved by the colored man's address and gave evidences of hearty agreement. The German delegates, however were opposed to the social application of Christianity.

Following Dr. Bell, Miss Fan, a Chinese delegate, spoke on racial conditions in China. She deplored the white race's feeling of superiority. She declared it would be fatal any longer to overlook the solving of China's problem.

One Law For All Men

Dr. Sidney Gulick of New York said: "We believe in one humanity comprising all nations and races. We believe in one immutable moral law for all mankind, obedience to which is required of nations. We believe the time has come for the nations to abolish the war system and to establish a new system of international relations based on reason, righteousness and good will.

Churches Must Co-operate

Sir Willoughby Dickinson of London in the course of the meeting declared that there "was hardly a spot in the world where the seeds of peace had taken root." "On the contrary," he continued, "the world is ripe for war; human passions are rising and hardly anyone is trying to calm them. Unless the so-called Christian civilization can be made really Christian, it will go the way of other civilizations, long since decayed. To fulfill this responsibility the churches must act together."

Dr. Lynn Hough of Detroit followed with the declaration that a provincial church cannot be the instrument of the progress of God for international good will.

Dr. Julius Richter of Berlin said that "unless the churches act as the agency of reconciliation and peace on the basis of a better understanding and mutual esteem, a further catastrophe cannot be avoided."

JURY EXONERATES WHITE WHO KILLED FLA. WOMAN

JACKSONVILLE, Fla., Sept. 2.—Although the plea of self-defense made by A. D. Thompson, 18, a white bill collector in the shooting to death of Mrs. Bessie McIntosh, was overthrown by the evidence presented by investigating Detective Fred King, the youth was exonerated of the killing by a coroner's jury.

Detective King said that the said knife which Thompson alleged the colored woman drew on him was really a baby's shoe which she had in her hand when the white offended her. Although the state fought for the conviction of the youth the jury declared the shooting justifiable.

A seven-month-old daughter and a husband survive the dead woman.

The sessions which had their beginning Tuesday morning with the annual address of the president, Dr. M. A. Dumas, were characterized by an effort to improve the health of Negroes. Carefully prepared papers on various phases of diseases and the diagnosis and treatment of the same were rendered by and discussed by the physicians. Illustrations by charts and stereopticon slides were shown to convince the doctors of the effectiveness of the treatment of the disease that was proposed.

In the dental meetings problems and diseases of particular interest to the members of that branch of allied professions were discussed by the members of the association and by members of the faculty of the Chicago University Dental School and Northwestern University Dental School.

The pharmacists also had their group meeting and there the men threshed out the problems that they faced in the buying and selling of drugs and discussed the laws governing the sale of narcotics.

Next Meeting in Philadelphia

Philadelphia was designated as the host of the thirty-first annual meeting which will be held in August, 1926. According to the opinion of those attending the Chicago session the "City of Brotherly Love" will have to step some to keep step with the pace set by the "Windy City."

MURDERER OF CALIF. MAN WILL GO ON NEW TRIAL SEPTEMBER 15

LOS ANGELES, Calif., Sept. 2—In the case against G. E. Hart, for the murder of J. H. Hart, colored, was reset in the circuit court for September 15. The shooting occurred last June, following the alleged breaking of a window pane by the latter's step son.

The jury deliberated for thirty-six hours, but failed to agree, and a new trial was arranged. The decision was held up by two of the jurors who were for the death penalty.

A window was broken at Gordon's place of business at Furlong Fast by one of a group of boys playing ball nearby. Gordon accused Hart's step-son although the latter protested his innocence. Gordon went to Hart's home at 1261 Adams St., and demanded settlement of the damage. When Hart refused the man went off and returned with a shot gun and resumed the argument during which he shot Hart.

Gordon was held on a charge of first degree murder. His counsel pleaded self-defense in the murder. A stranger by the name of DeTavalle testified that he saw someone take a gun from Hart's hand following the shooting. The prosecuting attorney, James Costello, fought this evidence hard to show that Hart was unarmed at the time of the shooting.

GAVE-IN VICTIM'S WIDOW FILES SUIT FOR $10,000

Second Suit Following Jury's Verdict Of Gross Negligence In The Collapse Of Building

KANSAS CITY, Mo., Sept. 2—A suit asking $10,000 damages was filed in the Independence division of the circuit court last week by Mrs. Mary Simpson for the death of her husband, William, a carpenter, who was one of six persons killed in the collapse of a building here, August 4. It was the fourth damage suit filed.

A jury investigating the accident several weeks ago returned a verdict of gross negligence. It was shown that John Disalvo, owner, Grant Keene, structural contractor and Lewis Stone, foreman, violated the city building code by starting the renovation of the structure before it had been properly inspected by city authorities.

Mrs. Simpson's husband was the last to be recovered from the wreckage of the building. He was found buried in debris standing erect with a hachet still clutched in his hand.

Mrs. Simpson is the fourth person to file a damage suit in connection with the fatal accident. Disalvo, Keene and Stone are named as defendants in each case.

One suit for $10,000 was filed by the wife of a white carpenter who was killed in the accident, and two others for $50,000 each, were filed by John Hill, colored, who was laying concrete in the building, and was crippled permanently and W. H. Fisher, white foreman, who alleges he was injured permanently.

Smith, prominent physician of this city, filed Thursday in the circuit court a suit asking a $50,000 damage against the Rock City Academy of Medicine and Surgery, the Capital City Dental Society, thirty-two doctors, dentists and ministers of the city, as a result of alleged slander and libel. COHEN DENIES CHARGES OF RUM GUILT

Accused Of Betraying Patrol Ship Secrets. Arrested And Released On Bail. Surprised When Indicted. Believed A Frame-Up.

Preston News Service

NEW ORLEANS, La., Sept. 2.—All of the 33 persons indicted by a federal grand jury here Thursday on charges of conspiring to violate the Volstead act, were released on bail Friday morning.

Many of Mr. Cohen's friends thought that the distinguished comptroller of the Port of New Orleans was the victim of a cleverly frame-up calculated to remove him from office. Mr. Cohen was the first of the *indicted men to furnished bail.* His bond is said to have been signed by Jos Gerling, a prominent white Republican.

Cohen Issues Statement

Mr Cohen issued a statement Friday saying that he was "as much surprised as any person in New Orleans when I heard of the indictment," and adding, "I was at my summer home at Bay St. Louis when I was notified of it and I at once returned to the city." He terminated this brief statement with a strong assurance of vindication.

It is said that certain southern white politicians have been greatly agrieved since the appointment of Mr. Cohen to the position he now holds. Twice both Harding and have made various efforts to oust him during his incumbency. It will be recalled that in 1924 an effort was made in the courts prior to the national election to have Mr. Cohen declared an alien and therefore incompetent to hold a federal office. This effort proved a fiasco.

Cohen's appointment created a storm in the United States Senate and it twice refused to confirm his appointment. After a hard fight lasting more than two years his appointment was finally approved. After President Harding and Coolidge had insisted on it. In 1922 President Harding gave Cohen the first of three recess appointments and he served without pay until his confirmation.

Among others indicted were Dr. J. A. Meraux, sheriff of St. Bernard Parish; Edward Reggio, Johnson, of the New Orleans police department; Corporal John Conrad and Patrolman Paul Gilmore. Alonzo Patterson and Arthur Battistella, alleged heads of the extensive rum running organization.

The conspiracy charge sets up that allegation that various persons named in the indictment planned to transport 4,200 cases of liquor from Havanna, Cuba, to New Orleans. Three policemen were alleged to have assisted in the landing of the cargo. It is claimed that the liquor was carried from the ship in high speed motor boats said to belong to Patterson. Battiselli is said to have been acting in the capacity of bookkeeper.

Furnishing information as to the movements of the customs boats is the charge made against Walter L. Cohen. The indictment alleges that Patterson consulted with Cohen July 27 as to the whereabouts of a customs launch.

EARLY MORNING BLAZE SWEEPS NEGRO DISTRICT IN ARKANSAS OIL FIELD

Preston News Service

SMACKOVER, Ark., Sept. 2—This city, scene of half a dozen disastrous fires in the two years of its existence as an oil field headquarters, had a slight taste of the red destroyer again early Wednesday morning when flames broke out in a restaurant owned by Anderson Bessix and swept an entire block in the Negro quarter before firemen brought them under control. Damage was restricted to $100,000, due to the fact that the burned over section was in the poor quarter.

The most serious loss was at the plant of he Smackover Bottling Works where the flames were stopped in their southward course after having eaten into the building. Although the plant eventually was saved, the they had moved four much of the stock of sugars and syrups and loosened the paper vanish ruin heavy in the event that the entire plant was doomed.

Places destroyed in the fire were as follows: Ferguson, rooming house; John Rice, rooming house and pressing shop; Lee Higgins's grocery; Anderson Bessix's cafe and rooming house; Lula McHenry's rooming house; Smith's barber shop; James Veasley's barber shop; Hicks's cafe; Frank Taylor's tailoring shop and John Mitchell's pool hall.

APPOINTMENT OF A KU KLUX IS DEPLORED

Notorious Georgia Kluxter Is Appointed By President Coolidge To Be Collector Of Port At Savannah. Jews, Negroes And Catholics Protest.

BOSTON, Mass., August 31—The Colored Citizens Committee of Greater Boston and the Massachusetts Branch of National Equal Rights League, Inc., Arthur Garfield Hays, General Counsel, Chairman, meeting jointly have issued the following public statement against the appointment of Marion O. Dunning as Collector of the Port of Savannah by President Coolidge:

"Speaking in behalf of the Colored American people, the Colored Citizens Committee and the Mass. branch of the National Equal Rights League, which organization and the great majority of the race supported by the Republican party in the last presidential campaign, feel compelled hereby to go on record and publicly declare that Colored Americans are surprised, grieved, filled with grave apprehension over the announced appointment of Marion O. Dunning as Collector of the Port of Savannah by President Coolidge in view of the Associated Press report that M. Dunning is chief of the staff of the Ku Klux Klan of Georgia, was a Klan delegate to the last National Republican Convention, only turned Republican when and because the Democratic denounced the Klan, represented the Klan interests at the Georgia legislature against unmasking and is a leading figure at Klan headquarters in Georgia.

Active Leader of Ku Klux

In behalf of our race, the Committee and League can do no less than complain of the appointment to high federal position of such an active leader of the Ku Klux Klan in view of the positive hostility of this secret hooded order to the economic, civil and political rights and equality of Americans of color, and to declare such selections by our Republican presidents disconcerting, painfully with humiliating color segregation at Washington still unabolished.

A Collector at Savannah devoted to the Klan policies against Catholics, Jews and Afro-Americans means an official hostile to more than half of the inhabitants of his district."

DYING STATEMENT SAVES INNOCENT COLORED MEN

JACKSONVILLE, Fla., Sept. 2.—A clue to the mysterious murder of two colored persons here by alleged Negro highwaymen is believed to be found as the results of the dying statement of a colored grocery proprietor in which he declared two white bandits shot him and not Negroes as the police supposed.

Daniels was shot in his place of business at Twenty-first street and Monroe Avenue. He died in the county hospital in an unconscious state. A small delivery boy told the police he had seen two whites flee the scene of murder, but they disbelieved him and started a round-up of colored suspects.

Just before he died, however, Daniels recalled consciousness and told hospital authorities that it was two whites who had shot him.

WHITE ATTEMPTS TO DYNAMITE NEGRO'S HOME

ATLANTA, Ga., Sept. 2—A fuse burning rapidly toward a bundle of four sticks of dynamite that lay on his front porch greeted J. H. Simmons, colored, of 1 Julian street, last Thursday afternoon when he returned to the front of the house to investigate a noise. The cap exploded just as he jerked it from the dynamite and he hurled it into the yard.

Simmons told detectives that he saw a white man dash up the street and jump into an automobile and speed away, but was unable to give a description. He is the only man who had no enemies and knew nobody who "had it in for him."

ELKS RE-ELECT J. FINLEY WILSON GR. EXALTED RULER

St. Louisan Is Honored As One Of Two Responsible For The Present Grand Organization.

RICHMOND, Va., Sept. 1—J. Finley Wilson was re-elected Grand Exalted Ruler for his fourth term by the I. B. P. O. Elks of the World in the twenty-ninth annual convention here last week. Henry J. Callis was elected Grand Secretary and James T. Carter, Grand Treasurer.

"Jim Crow" Destroyed

The city was turned over to the Elks for the week. They were granted every courtesy that could be hoped for: Jim Crowism, segregation and prejudice if it existed in any manner were precious to the coming of the convention, was cast to the four winds. Visiting Elks at anywhere they wanted to sit on the street cars, frequented any place they happened to pass and were given service whenever they demanded it, according to police records there was not the slightest disorder on the part of the visitors and no friction at all between the races. There might have been an abundance of whiskey here but there have been recorded but two drunks out of the fifty-thousand visitors, and forty-thousand home folks. Many visitors, particularly those from the North who had misgivings about the south, or some parts of it, have been loud in their praise of the treatment accorded them while here.

The parade with 25,000 marchers was the most spectacular in the history of the order.

St. Louisan Honored

A question arose on the origin of the organization and it was agreed from the manuscripts that Frank H Hunter, a member of Washington Lodge No. 6, and Past Exalted Ruler, of St. Louis; with Arthur J. Riggs of Prince Hunley Lodge No 459 of Springfield, Ohio, were the ones responsible for the present grand organization. The Grand Lodge, in recognition, conferred the degree of Past Grand Exalted Ruler on these honored members.

St. Louis Delegates

The delegates from Washington and Polar Wave Lodges of St. Louis were very important factors in the convention. The Grand Lodge officers elected were as follows: Grand Exalted Ruler, St. Louis: Washington No. 6—R. E. Harris, D. D. J. C. Cole, P. Ex. R.; A. L. Brown, Sec.; Frank H. Hunter, Staff Organizer; J. Hughes, Treasurer; T. J. Newsom, P. Ex. R. and W. M. Roberts; Polar Wave No. 112—J. H. Young, P. Ex. R.; W. M. Price, P. Ex. R.; C. Morris, Sec.; C. H. Jackson, M. S. S.

RISK LIFE TO RESCUE CHILDREN FROM BLAZE

ALHAMBRA, Calif., Sept. 2 — Pouice Sinis, colored, of 107 East Mission Road risked his life Saturday to save the lives of his three children in a fire which completely destroyed his home. Although he was seriously burned in making the rescue physicians expressed hopes for his recovery.

Firemen declared that the children ranging in age from one to five years would have been lost had it not been for the bravery of their father.

Sinis and his wife were awakened about 2 a. m. by the crackling of burning timber. They rushed from the front apartment which was already enveloped in flames.

Sinis missed his little ones and without hesitating, rushed back into the blazing building and entered the children's room where he found them still sleeping soundly. He gathered them up in the bed clothes and staggered through the smoke and fire to the yard where he collapsed with his burden.

The building was burned to the ground by the time firemen arrived. The fire was believed to have started from an open fire place.

ASK PULLMAN SERVICE FOR NEGROES IN THE SOUTH

NEW ORLEANS, Sept. 2.—A petition requesting that sleeping car accommodations be furnished for Negro travelers on all trains out of New Orleans, adopted by the Universal Negro Improvement Association, was mailed to the Board of Directors of the Illinois Central and other railroad lines operating out of the city.

The petition stated that certain cases of Negro women have been forced to travel in day coaches or whose children had been deformed due to the same cause, had been brought to their attention, and had prompted their appeal.

It further stated that there were hundreds of Negro women forced to travel long journeys when in this condition who can and will pay for better accommodations. It states there are hundreds of Negro physicians, lawyers ministers, business men and women who will support this measure. It recommends that through "a spirit of human sympathy and fairness to all races" a sleeping coach be attached to each passenger train operated by Negroes on all railroads throughout the South.

FEARS LASH, SAYS NEGRO ROBBED HIM

Hot Pursuit By Indianapolis Police Ends When Boy 12, Confesses He Lied About "Negro Criminal."

INDIANAPOLIS, Ind., Sept. 2 — The old, old story of a colored man being made the initial victim of a crime invented by a white, as the excuse for the Nordic to throw off his guilt was created here Saturday, when fear of parental wrath led Robert Taylor, 12, to tell a false hood, which led police on a futile search for a Negro assailant and highwayman.

"Beaten and Robbed"

Robert claimed that a Negro had waylaid him, while he was on an errand for his mother. The Negro he charged demanded his money, and when he refused to give him his mother's fifty cents the man struck him over the head with a club.

Police In Hot Pursuit

True enough when Robert was found sitting on a curb at Virginia avenue and Alabama street, he was covered with blood which was flowing from a deep gash in his head, and his fifty cents was gone. And at the hospital where he told the police about the Negro assaultor and highwayman, they readily believed it, and informed the entire Indianapolis force to scour the city for the colored criminal.

Confesses Guilt

Robert was not an honest to goodness, downright bad lad, however and he soon broke down under the sting of his conscience and confessed that he had not been attacked by a Negro. He told how he had received the cut on his head when he fell upon a building under construction near where he was found and lost the fifty cents. In his fear of punishment for the loss of the money he said he thought up the story about the Negro highwayman to save himself. When asked why he accused a Negro, he said that he was "scared" but that he knew that it was always easy for a white boy to get out of trouble by placing the blame on a colored man.

COLORED GIRLS SCORE AT PLAY GROUND FETE

Eighty From Leffingwell And Tandy Play Grounds Dance In Annual Play At The "Muny" Theatre.

Tuesday afternoon was children's day at the Municipal Theatre. Many proud parents were present to see their boy or their girl take part in the annual fairy play by children of the city playgrounds.

Eighty Dance

Over eight hundred colored and white boys and girls were in the dances in the fairy drama, "Cinderella," which was the final of a cycle of five that has been given in the last five years. The portrayal of the familiar child story by the nimble and sprightly dancers from St. Louis' many community playgrounds while many of the many youngsters in the audience as the telling of it at a "story hour" usually does. And the older folks seemed never to have their fresh keenness for the imaginative and fantastic. All watched intently.

Colored Playgrounds Score

It remained for the products of Leffingwell and Tandy playgrounds to captivate the audience and even.

Eighty colored girls from these two playgrounds gave a true personification of grace, rhythm, harmony and unity in their dance presentation. The dance began in a slow movement accompanied by the hollow walls of tom toms. The motions of the dancers made the uncoiled dances of a creation of their own people the "Charleston." "No wonder," some one declared, "that the Negro is called the master of rhythm."

As the audience took its departure, the faces of its many colored members were submerged in smiles of satisfaction, while many whites were still acclaiming the splendid showing of the girls from the Leffingwell and Tandy playgrounds.

"The Fate of the Disobedient Son"

Chapter II.

That night at seven o'clock, Mrs. Heathwood was awakened from her slumber by her husband calling to her lovingly, "Wife dear, where is the boy, and what is the trouble? Are you ill? You are never asleep this time of evening. And your eyes —how red they are." All this he said under one breath.

"O Fred! Our boy, our boy!" This was all she said.

"What—what is the matter with him. What about him?" questioned the father, now removing a bundle from under his arm. "Here, sit down and tell me all about it. Has he left us?. Now dear, don't worry." With a tender pat on her head he assisted her in sitting in a chair near at hand.

"Why this afternoon when I called him to dinner he talked to me as if he were my guardian. I simply can't understand him; why he told me he no longer cared to study and attend college, but wanted to see the world, and spend his time in that wretched and wild city, New York. O, what shall we do? Oh! Oh!"

"Well, Matilda darling, don't worry. Only last night when we were sitting right here in this room planning some way to complete his college education, I told you I expected it all; just think only fifty years ago, when I first met you, we knew nothing of education; why we were in utter darkkness and here our boy has an opportunity but will not grasp it."

"Yes, Fred, and just think, from a babe, we gave him our tender care and toiled not for ourselves but for his future. Oh, oh, no more happiness, but perpetual sorrow."

The lights illuminating the well furnished room portrayed a mother, grief-worn and sad, wiping from her eyes tears that wrote, "L'amour dune mere" (the love of a mother) as they flowed down her cheeks, while just across from this head-bent, sorrowful mother, sat a father of sympathy for his dear mother and love for his son, with legs crossed and wearing soiled but neat blue overalls, with a ruler in the pocket of the left leg, depicting if true father who, by the sweat of his brow, had made a comfortable home for his family and had given more than the average boy desired—but as a spendthrift's son, had been given more money, fine clothes, luxuries and above all, parental love. But ah! this was useless.

The mother broke the silence with, "Yes, I knew it all. After we put him into society and he began attending these social functions, I knew what would happen—as you know the true old saying—Books and girls or books and lavish expenditures don't "mix," but probably some day, when his money is gone and his friends have forsaken him, he'll then return as more than ever, and probably return home. But, come dear, I know you are tired and hungry, so I must prepare your supper while you clean yourself."

With a forced smile, following a caressing kiss on the forehead, "mother" went into the kitchen while "father" went to the bath room to make himself presentable.

It was not long before husband and wife were seated at the table enjoying a very palatable meal. Nothing more was said of the "Wayward Boy" at the table as the father knew the heavy load on his dear wife's heart, so he introduced the discussion of the wedding of his wife's friend which they were to attend the next night.

FOR THE CONTEST

The legend that the Negro race had touched America even before the days of Columbus rests upon certain basis of facts; First, the Negro countenance, clear and unmistakable, occurs repeatedly in Indian carvings, among the relics of the Mound Builders and in Mexican temples and also there were evidences of Negro customs among the Indians in their religious worship. Second—The chief cultural influence of the Negro in America was exerted by a Negro colony in Mexico, most likely from Teotihuacan and Tuxtla, who may have been instrumental in establishing the city of Mexico. Third—In 1540, in Quivera, Mexico, there was a Negro priest, and in 1541, there was at Germango, Mexico, three Brotherhoods of the True Cross of Spaniards, one of which was composed of Negroes and one of Indians. From 1535 to 1544, Negroes had come to form part of the household of the wealthier colonists. The Negroes were beginning to form the bulk of the population.

Nuflo de Olana, a Negro, was with Balboa when he discovered the Pacific Ocean and afterward thirty Negroes helped Balboa direct the work over 500 Indians in transporting the material for his ships across the mountains to the South Sea.

In 1539, Negroes accompanied De Soto and one of them stayed among the Indians in Alabama and became the first settler from the old world. In 1555, Gaviago de Chilla, a free Negro owns land in the town De Spite the propaganda of 400 years, survivos as a clear and important instance of Negro leadership in explorations.

William Alexander Leidsdroff was the most distinguished Negro pioneer of California and at one time lived in the largest house in San Francisco. He owned the first steamship sailing in San Francisco Bay, and was a prominent business man, a member of the City Council and treasurer and member of the school committee. In 1845 he became U. S. Vice Consul.

Matthew O. Henson was with Commodore Peary as assistant, on his second trip to the North Pole and Nearing on 1887, which leaves Henson, the only living being living who has stood at the North Pole.

COLORED WRITERS ENRICH AMERICAN LITERATURE

In an editorial on "A Negro Literary Renaissance," the New York World, of August 23, comments as follows:

Since 1920 there has come forward a group remarkable for its vigor, originality and for its flavor. In it we find included Jesse Fauset and Walter White, whose novels, "There Is Confusion," and "The Fire in the Flint," are subtle studies of race problems. In short story it has produced Jean Toomer. It counts such poets as Claude McKay, the Jamaican-born author of "Harlem Shadows," and the Spingarn prize winners—Countee Cullen and Langston Hughes. These and others are gaining the Negro a recognized place in contemporary letters.

Only a few years ago, when American history still a speculation and was exclusively rural have been given the stimulation and cultural advantages of the metropolis. They have now a number of their own intellectual, social and financial leaders to guide them. The response to the new environment is already striking and promises to afford the Negro all over the United States. Other arts aside with Burleigh, Roland Hayes and Nathaniel Dett; the stage with Paul Robeson have welcomed Negroes, but perhaps naturally they find their fullest voice in literature."

"Thais is coming to the Odeon soon. —Adv.

"BANDANNA GIRLS" PLEASING BOOKER WASHINGTON PATRONS

Boise De Legge's "Bandanna Girls" are presenting a good show at the Booker Washington Theatre this week and the patrons are well pleased. The company includes a jazz band which occupies the pit.

The show is a mixture of songs, dances, comedy and a clever slack wire performance by Grey and Grey. The curtain-raiser is a chorus number, "Bandanna Days" introducing Marguerite Gentry. Specialty numbers follow in quick succession, and the comedy is kept flowing by Bootsie Swan and Frank Keith, who does the "wench" character to the limit.

Among the entertaining features are: two song and dance numbers by Florence De Legge and the girls, "My Sugar, etc," and "Alabama Bound;" Fred Durray and Miss Gentry in a team specialty; Swan's "Jump Steady Ball;" Sunny Austin's dancing; Keith's monologue with a song and a humorous telephone talk; Esther "Jazz Baby" Johnson and company singing and dancing, "Everybody Loves My Baby etc;" Jessie Burney with two good blues numbers; Lovey Freeman and chorus in a cabaret chorus which is followed by Miss Gentry singing, "I'll See You in My Dreams" and a "Charleston" contest that goes over big. The closing piece with the entire company is "Who's Sorry Now."

DUSTY MURRAY'S "STRUTTING ALONG" COMPANY, NEXT

Dusty Murray and his "Strutting Along" company of fifteen performers, will be next week's attraction at the Booker Washington, beginning Monday. The personnel includes Dusty and Rastus Murray, Chic Page, Raymond Johnson, Ella May Waters and Bell Murray, with a chorus of clever girls and other character performers. This combination comes well recommended. The patrons will receive their "Pay Day" envelopes as usual.

"SLIDING" BILLY WATSON AND "WHIRLWIND FOUR" AT GAYETY

"Sliding" Billy Watson and his "Big Fun Show" comes to the Gayety next Saturday matinee for a week's engagement. Watson is always surrounded by a clever company and has a big show. Included in his lineup are "The Whirlwind Four," three colored youths and a pretty girl who have always been favorites here and are just about the speediest dancing routine ever seen on a St. Louis stage. The show as a whole is said to be the best Mr. Watson has piloted, which means some entertainer.

THE PICTURE THEATRES

THE STAR

Baby Peggy in "The Family Secret" will be the feature at the Star Theatre this Saturday, in this picture a father, who had deserted his wife and child returns to burglarize his own home without knowing it. He is discovered by the child, who recognizes him and there is plenty of action in the subsequent happenings.

Hoot Gibson will be seen in "Spook Ranch," on Sunday. There is plenty of action in this picture. Playing the part of Bill Banes, a Texas cowboy adrift in the Mojave desert, Hoot steps into a haunted ranch and into an amazingly complicated plot full of laughs and thrills and a half dozen ruffians who are trying to wrest the secret of a valuable hidden mine from the owner of the ranch and his daughter, who are being held in the building as prisoners.

"Lefty" Flynn will be featured in "Speed Wild," on Monday. "Not For Sale" and "The Golden Thought" will be Tuesday specials. Jack Hoxie will be seen in "The White Outlaw" on Wednesday.

The special for next Thursday and Friday will be "The Goose Woman." Louise Dresser is the leading star. It concerns a strange, drunken slattern who lives alone on a pig and goose farm. Here she suddenly bursts into prominence when her rich neighbor is murdered, and she claims to have witnessed the murder. Loving publicity, she continued to fabricate a startling yarn and her son is arrested for the murder. Then to save him she reveals her secret, and there follows a strange and startling denouement.

THE COMET

"The Lost World" will be the attraction at the Comet Theatre this Saturday and Sunday. It tells the story of a party of English scientists, newspaper men and a girl who venture into the wilds of South America and discover a lost section of the world, where life has remained unchanged in pristine wildness throughout 100,000 centuries. Finally capturing one of the monsters, a brontosaurus bigger than ten elephants, the party returns with it to London to prove their discovery. One of the most thrilling scenes ever filmed is that in which the monster, escaping from its captors, charges through the heart of the London metropolis, wrecking buildings and terrifying thousands of pedestrians.

Among the features during the week will be "The Light of Western Stars," on Monday, "The Manicure Girl," on Tuesday, and "The Tomboy," on Wednesday.

Two big attractions will be offered on Thursday and Friday in conjunction. Dorothy Revier and Cullen Landis are starred in "Enemy of Men." It concerns the devotion of a sister for her almost helpless younger sister, who is misguided and marries a brutal politician. As a result of the younger sister's series of misfortunes the older sister becomes intensely bitter, and capitalizing her beauty she set out to make all men pay for the vicious acts of one. "Thunder," the dog star will also be seen in "His Master's voice." This is a big picture with a stellar cast.

THE RETINA

Hester's "Minstrel Maids" will be the feature at the Retina Skydome this Saturday, in an entirely new show.

Pops Hodge and his "Jazz Babies"

will have another record breaking entertainer on Friday.

Bill Cody will be featured in the theatre only on Sunday with "The Fighting Smile." It is a dynamic western packed with thrills.

"Scarecrow," the comedian and his Sunflower Girls will be seen on the stage Monday, and the screen attraction will be Fred Thomson in "The Wild Bull's Lair." It is replete with action and distinctive from start to finish. Thomson's great horse, Silver King, plays a prominent part in this breathless drama, and assists materially in the many comedy touches which relieve its intense tone.

Wm. Desmond will be seen in "Outwitted," on Tuesday; "The Turmoil" and vaudeville on Wednesday; "Adventure" and "The Skydome Revue," on Thursday; "Broadway Butterfly" and vaudeville next Friday.

THE JESTAMERE

John Bowers and Marguerite De LaMotte head the cast in "Flattery" at the Jestamere Theatre this Saturday.

The attraction for Sunday, Monday and Tuesday will be "Kiss Me Again," an Ernst Lubitsch production. It is a highly amusing story of a Parisian wife who left the guarded confines of marriage to seek romance, but soon found that she yearned again for the arms of her philandering husband—more desirable now that he was finding pleasures away from her. Marie Prevost is cast as the restless, flirtatious and highly-strung Loulou who loses some of her aplomb when she discovers that her husband, played by Monte Blue, is quite pleased to give her up to another. That phase of the triangle bursts upon Loulou's vanity with all the peaceful effects of a bomb and leaves her prey to a thousand demons of jealousy, convinced that her husband has a paramour of his own. To help the situation, Gastons' manner suggests that the beautiful Grisette, portrayed by Clara Bow, is consolation enough for Loulou's absence. The result is a fast-moving story, funny in the extreme.

Eva Novak and William Fairbanks will be featured in "The Battling Fool" on Wednesday.

The attraction for next Thursday and Friday will be Constance Talmadge and Antonio Moreno in "Learning to Love." It is one of their best comedy efforts.

THE CRITERION

"Kiss Me Again," Ernst Lubitsch's story of a butterfly wife in search of romance, featuring Marie Prevost, will be the Criterion Theatre feature this Saturday.

Milton Sills will be seen in "The Making of O'Malley," on Sunday. It is a vivid, heart-gripping story of a New York policeman and a society heiress. It has thrills galore, pathos, tragedy and real fun.

"The Crimson Runner" will be presented on Tuesday. Priscilla Dean is the star in this fiery romantic drama of a young female Robin Hood, who tortured the aristocracy and vexed the police of post-war Vienna.

D. W. Griffith's "America" will be the special on Thursday. It is a romantic epic of the war for independence, with great conflicts and historical events in elaborate succession, a great production.

THE VENUS

Four acts of vaudeville, presented by the "Broadway Kiddies," a musical comedy show, will be the Venus Theatre stage attraction this Saturday. The picture feature will be Fred Thomson and his pony, "Silver King" in "The Silent Stranger."

Anita Stewart will be seen in "Baree, Son of Kazan," on Sunday, Monday and Tuesday. It is a story of the Great Northwest and features Baree, a remarkable dog. It is romance of the most compelling kind in which a beautiful girl, a brave man, and a dog battle for happiness. Adventure in the heart of the snow covered Canadian wilderness with brute men and brute beasts. The main story is closely knitted with the actual lives of those hard-bitten men and women of the North. There are Indian trappers, hunters, dog-drivers, wolf packs—in fact every phase of an existence at once alluring, adventurous and mystic.

Agnes Ayres in "Worldly Goods" will be the Wednesday feature. It is the story of a girl who thought she was getting the world's prize husband—and found he was only the booby prize.

A double feature program on Thursday and Friday will have Baby Peggy in "The Family Secret," and Laura LaPlante in "Young Ideas."

THE OLYMPIA

"The Lost World" will be featured at the Olympia Theatre this Saturday and Sunday. Love, romance, adventure as well as education are embodied in the amazing film, by Sir Arthur Conan Doyle. Father Time breaks every sleeping record in all literature—or screenature. He snores away for 10,000,000 years. In other words, in a certain spot in the wilds of South America, he remains stationary for 100,000 centuries. A party of screen adventurers including Bessie Love, Wallace Beery, Lewis Stone and Lloyd Hughes, discover this land that Time forgot. They find strange and fearsome prehistoric dinosaurs of the Reptilian Age still alive—looking for fresh meat. Miss Love is almost caught by one. But Messrs. Stone, Beery and Hughes rescue her just in time, and it is on that rescue that the tense love theme of the picture hinges.

The week's program will include: Frank Mayo, Mae Busch, Elliott Dexter and Eva Novak in "Trimmed in Steel"—also a western drama "Tricked," on Monday; Johnny Hines in "The Cracker-Jack," on Tuesday; Mae Marsh in "Tides of Passion," on Wednesday; House Peters and Miss Dupont in "Rafles" on Thursday.

THE CASINO

Yakima Canutt, world's champion cowboy, will be seen in "Romance and Rustlers" at the Casino Theatre this Saturday, which brings forth a strenuous fight for love and reputation by a young rancher, and his fast riding—hard loving—deep hating—and swift punching, bring him the vindication and the love he so rightly deserves. It is filled with thrills of desert scenes and storms.

"The Texas Trail" on Sunday. It is a story of a daring hold-up resulting in the robbery of ten thousand dollars intended to pay off a mortgage due the next day, and the clever recapture of the money through the scheming and daring of the young heroine with the aid of the hero. The little twists of plot are all subtle and always unexpected, which adds measurably to the excitement of the picture.

Other features for the week will be: Art Acord in "The Circus Cyclone," on Monday; Dick Hoit in "Ten Days," on Tuesday; Jack Perrin in "Canyon Rustlers" on Wednesday; "Greater Than a Crown" on Thursday; and Baby Peggy in "The Family Secret," next Friday.

THE LINCOLN

"The Marriage Whirl" will be the feature at the Lincoln Theatre this Saturday. Corinne Griffith is the star in this story dealing with the influence of jazz on the younger generation. It portrays country club life and the night life in New York and Paris in a true and unflinching way. There are many big scenes, elaborate gowns and costumes worn by those participating in these revels.

Colleen Moore in "The Desert Flower" will be the Sunday feature. The building of a railroad, with a girl keeping house in a boxcar for her stepfather, who is foreman of the construction gang, supplies interesting atmosphere for the early scenes.

Other features for the week will be: "The Price of Pleasure," on Monday; Mary Philbin in "The Gayety Girl," on Tuesday, also the first episode of "Perils of the Wild;" Baby Peggy in "The Family Secret" and Yakima Canutt in "The Human Tornado" on Wednesday; Mae Marsh in "Tides of Passion," on Thursday; Evelyn Brent in "Smooth as Satin" and Harry Carey in "Silent Sanderson," on Friday.

THE ROOSEVELT

"Simon Called Peter" and "Recompense" will be the screen features at the Roosevelt Theatre this Saturday. Bob White's "Jazz Babies" will be the stage attraction.

"Thunder," the dog star, will be featured in "The Silent Pal," on Monday; and Bob Wyatt with his company of six will entertain on the stage.

Jack London's "Adventure," a stirring action tale of the savage South Sea Isles, will be the screen feature next Friday. There will also be an amateur vaudeville contest.

ST. LOUIS RAVES OVER REHEARSALS OF "THAIS"

It is gratifying to the Day Nursery Organization, the promoters who are putting every energy to put over the Christian Drama "Thais," to hear from every gathering complimentary remarks about the rehearsals of this master play. Applicants are still seeking parts and Mr. Clarence E. Muse, the director, has been put into the difficult position of trying to decide between the many artists applying as to the proper person for the parts.

He amusingly said, "While passing along the streets it is humorous to hear the many different pronunciations of the title of the play. In many incidents there are heated arguments as to the correct pronunciation; so here is" the authority, 'Thais' is pronounced as ('Tie-esse.)"

Many have inquired about the story. It deals with the Christian Era. The events are laid around the city of Alexandria and concerns one who is called a perfect woman, a courtezan, who rules the city of Alexandria in sin and vice. Her name is Thais ('Tie-esse), and she is heralded throughout the land. Far into the desert lives a group of hermits or monks who are constantly praying for the deliverance of Thais. In this group there is one heroic character, Damiel, the father of the hermits who forces his way into the city of Alexandria to Thais, depending solely upon the spirit of Christ to support him, and after many tearful situations, both humorous and tragic, he finally succeeds in converting Thais into the ways of Christ, but her beauty is so enchanting and compelling that even he constantly thinks of her, and in her absence he is overcome by her charms. He is about to yield to the call of the "flesh." Thais, now a White Sister, calls upon the spirit and her soul is lifted to Heaven, redeemed and purified, we find Damiel her minister of the gospel, completing the story of the "sinner who became a saint, and a saint who sinned." —Adv.

MISS ANDERSON SCORES IN HER APPEARANCE WITH PHILHARMONIC SOCIETY

Audience Of 7,500 Receives Singer Enthusiastically. Critics Are Unabounding in Praise

By A. C. P. Press Service

Marian Anderson, colored contralto, enjoyed a triumph at her appearance with the Philharmonic Orchestra in the City College Stadium on Wednesday night, August 26, having been chosen for this honor from 300 competing singers. F. D. Perkins, critic of the New York Herald Tribune, asserts that the audience was estimated to be the third largest of the entire season of Stadium concerts. Mr. Perkins in his review of the event calls Miss Anderson's "a voice in a hundred thousand," and continues:

"A notable feature in Miss Anderson's singing was its entire naturalness; all that she had to do, apparently, was to sing, without any need of apparent effort to fill the Stadium spaces. In high and low notes, there was a full, rich quality that carried far; the singer had no more trouble, it seemed in singing at the Stadium than in singing at Aeolian Hall, but seemed more at her ease, in smoother voice, than in Aeolian Hall auditorium.

"A storm of applause followed the Donizetti number, very meritoriously sung, and 'Miss Anderson sang two' Negro man Terry's 'The Answer' as an encore. But expressively, she seemed most at home in the three spirituals scheduled for her second appearance: Harry T. Burleigh's 'Deep River' and 'Heav'n' and J. Rosamond Johnson's 'Song of the Heart,' in a performance characterized by what might be called expressive simplicity."

The New York Times reviewer said Miss Anderson made an "excellent impression" and found her "endowed by nature with a voice of unusual compass, color and dramatic capacity."

RENTS ARE GOING DOWN THROUGHOUT COUNTRY

Figures From 179 Cities Show A Drop Of More Than 5 Per Cent. Expect Big Decrease.

NEW YORK, Sept. 2.—Rents are going down. Many tenants may not believe it, but figures of the national industrial conference board issued today show a decrease of more than 5 per cent. The figures are based on reports received from 179 cities.

Bay City, Mich. has the lowest rental rate in the country and Billings, Mont. is pushing it hard for honors. Rent payers in New York, Chicago, Boston, Philadelphia and other largest cities haven't the happiest lot, the report showing that in many small towns the average rents are proportionately higher than in the bigger centers of population.

Johnstown, Pa. leads with an increase of 200 per cent for 1925 over the rental rate of 1914.

The trend will continue downward in many cities in the next year, the board experts predicted.

"The highest rents within a decade were obtained about a year ago in July, 1924, when average rental values for the country were 86 per cent higher than in 1914," the report said. Thereafter rents on the average declined slowly until last July they had dropped to a point only 79 per cent higher than the pre-war level. Among the twelve largest cities Boston alone reported an increase in the last few months.

"Los Angeles shows the greatest net increase in rents since pre-war days among the larger cities."

GUNMAN'S BULLETS WOUND TWO NEGRO WORKMEN IN K. C., MO.

KANSAS CITY, Mo., Sept. 2 — Joe Scott, 613 East Fourth street and Will Combs of 573 Troost St., both innocent colored by-standers were wounded by stray bullets fired during a running battle Saturday between a motor cycle policeman and a mysterious blacked face white gunman. Scott's wounds were pronounced critical.

Unaware of Wounding

Scott and Combs were working at Admiral boulevard and Troost Ave. when the chase passed. John Scahill the policeman did not know of the wounding of the two men until after his futile attempt to capture the driver of the speeding Ford had failed.

Intentions A Mystery

The policeman's attention was attracted by the suspicious actions of the man driving the Ford and upon closer observance he detected that his face had been blackened and that he was not colored as supposed. When he started to question the man, the latter drove off, and the running pistol duel in the heavy downtown traffic ensued. The fugitive escaped after he had carefully placed a bottle of nitro-glycerine wrapped in a gunny sack on the side walk. What the blackened face white man intended to do with the explosive, the police were puzzled to know.

St. Louis Stars Win Five Straight From Detroit and Leave For Kansas City Five and One Half Games In Lead

Pennant Is Now In Sight

Five Straight

The St. Louis Stars left for Kansas City Friday to engage the Champion Monarchs in a series of five games. The Stars have a lead of five and one half game and expect to clinch the pennant for the second half, before they return home, to play the final series of the season with the Memphis Red Sox. The Monarchs, even if they should win all five of the games, cannot pass the Stars, but the St. Louis boys left with the confidence that they can take the series. If they win two games, they would have to lose all five to Memphis to be beaten in the race. Of course this is out of the question. So the fans might as well get ready for those League Championship games after September 16.

Argus To Get Returns

The Argus will receive returns of all ball games played in Kansas City each day. Complete reports should be in not later than 7 p. m. daily. The office will be open on Sunday evening also, for information to the fans.

The St. Louis Stars by lightened their hold on the first place in the National League by making a clean sweep of the series with the Detroit Stars. Saturday's scores was 7 to 4. Sunday's wild affray ended 16 to 15. Monday the score was 7 to 4 and Tuesday the Stars went over by a 6 to 5 score. The final game was won 8 to 6 in six innings being called at 5 o'clock to allow the Detroit team to start on the evening train for home. As Kansas City won three of the five games played in Chicago while the Stars were winning five from Detroit, the local team gained four full games on Kansas City and are leading by 5 and one-half games.

Saturday's Game

The St. Louis Stars defeated the Detroit Stars 7 to 4 in the opener at Stars Park Saturday and gained another full game on the Kansas City Monarchs, as they lost 4 to 3 to Rube Foster's team on that day. Brown pitched a good game after relieving Miller in the second inning as he held the opposition to five hits and one run in eight innings. The Detroit team started off with three runs in the first inning when they connected for two singles and a double and with the aid of an error amassed an early lead. The local Stars made it 3 to 2 in the fourth, Bobo, Rodus and Wells drove out singles and Barnes doubled. The visitors added a run in the fifth, or walked and was sacked to second and scored on Smith's right field single. That was for them. The Stars won the game in the 6th when they pounded Kenyon off the mound and Frank Bell walked three men to force in what proved to be the winning run after the Stars had scored two runs on a double by Bell, Wells' walk and singles by Bobo and Barnes. Riggins error, a walk to Wells, Bobo's sacrifice and Barnes third out four hits made during the game, gave the Stars a pair of runs in the sixth

Sunday's Game

The Stars made it two straight games when they again defeated the Detroit Stars by a sensational eighth inning rally to pull a game out of the fire which was apparently lost beyond recall as the visitors had mastered the local pitchers in nine of the three innings and scored eleven runs to the first three innings and scored at least one run in every inning, the fourth and ninth innings being the only scoreless rounds. The final score was 16 to 15. Hamilton Cooper and Woods did the hurling for the visitors while Taylor used Brannahan, Davis, Hensley, Miller and Brown and had eighteen men in the box score, using rare judgment in lining up his reserve forces, as in each instance where he used a pinch hitter that particular individual delivered what was asked of him. There were too many runs scored to tell about all of them and the only inning of importance was the eighth when the locals came from behind and tied the score and put over another run to win the game, as Detroit was scoreless in the ninth. Murray singled to start off the rally. Taylor batted for Miller and was out on a roller to short. Wells walked to second. Bell connected for a home run scoring behind Murray. Wells walked and Bobo flied out to Jones, but Wilson doubled, putting Wells on third. Creecy's single scored Wells and put Wilson on third. Russell tripled and both runners counted. That was enough for Cooper and Combs came in to stop the rally, but Barnes drove the new hurler with a double, Russell stopping at third. Murray up for the second time connected for his second blow, a single, and Russell scored. The Stars were one run behind Taylor was intentionally passed and the bases were filled. Bell singled to score Murray and Rodus, putting the Stars one run to the good. Wells ended the rally with a fly to Jones. The visitors went out in order in the ninth.

Monday's Game

Three straights for the Stars when they triumphed 7 to 4 on Monday. After Cooper had held the locals scoreless for five innings they fell on him for three runs in the sixth and two more in the seventh, one in the eighth and three in the ninth. Detroit touched Rose for a pair of doubles to score one run in the third. A double and two singles added two more runs in the fourth. The Stars scored two runs in the sixth when Wells walked and Creecy, Russell and Bobo hammered out singles. Bell's home run tied the score in the seventh. In the eighth Detroit went into the lead by a run when Sheppard and Jones singled and the former came over while Kennard was being thrown out at first. The locals tied it up in the eighth when Creecy doubled and Russell tripled in the ninth the Stars scored three runs to win when Russell hit a home run with Wells and Creecy on base.

Tuesday's Game

The Stars made it four straights on Tuesday when they won from Detroit by a 7 to 6 score and for the fourth time in the series were forced to come from behind. Detroit scored two runs in the second inning on four singles. Creecy's home run gave the locals one in their half of the inning. The visitors picked up a pair of runs in the fifth on three singles and a walk. In the sixth the local team scored one run on Barnes' single and by great sprinting the round catcher scored from first base on Creecy's double to center. Two singles and an infield out netted the visitors a run in the seventh. The Stars drove Combs from the mound in the seventh when they found him for two singles, two doubles and he walked one man and hit another. Bell relieved the little right hander and stopped the scoring but five runs in that round made it too hard for Peters in the eighth. Detroit scored their final run when Miller walked Kenyon and Daniels tripled.

Wednesday's Game

The St. Louis Stars made a clean sweep of the series with the Detroit team when they captured the final game 5 to 0 on Wednesday after a hard struggle. The score was called at five o'clock to allow the Detroit team to catch the evening train for home and there was considerable jockeying at time when the Detroit team scored four runs in the seventh inning but the Stars played them at their own game and the game reverted to the sixth inning. The Stars took the lead in the opening inning and it was the first time in the series that the local team was first to score. Bell and Wells doubled and Bobo sacrificed Bell to third and the fleet center gardener scored on Barnes' infield out. In the second the visitors scored three runs on an error, a single, a walk and Newsom's triple. The local team tied the score at three all when they counted one run in the latter portion of the inning on Russell's single and Watts' double. In the fifth inn, visitors took the lead by scoring three runs on two walks and a triple. A double by Wells and Creecy's single gave the locals another run in the sixth. Singles by Watts and Bell, a walk to Wells and a triple by Bobo and a double by Creecy netted the Stars four runs and the game in the sixth inning. The visitors scored five runs in the first half of the seventh inning but as they were unable to give the local team its full time at bat the score reverted to the sixth inning and the final score was 5 to 6.

Fans Protest Against Foster Firing Umpires

St. Louis Colored baseball fans are up in arms over President Rube Foster's recent arbitrary move in releasing all Colored umpires in the Negro National League. Those bearing the names of several hundred persons voice their sentiment.

The two umpires here received their final notices Wednesday that "The League has decided to use no more colored umpires this season." So far as St. Louis is concerned, fans here have never seen any white umpires for Colored games show any better ability than Donaldson, Jamison and perhaps a couple of others.

The fans here want and will demand that the game here be a 100 percent race enterprise and umpires must be developed along with the players if we are to promote a race institution.

Billy Donaldson left for Kansas City Friday morning to witness the series between the Stars and Monarchs. He may return here to officiate during the final series with Memphis. C. J. Jamison went to Chicago and will go from there to Jacksonville, Florida for the winter.

GOLF CLUB ORGANIZED

A Negro Golf Club was organized at Pine Street Y. M. C. A. last Monday evening, for the purpose of encouraging this sort of outdoor recreation among colored people of the city.

The possibilities and the future activities of such a club were discussed by those present, whereupon it was decided that a permanent organization was necessary to carry out the purposes of the club. "Catwater Negro Golf Club of St. Louis" was selected as a name and the following officers were elected for the ensuing year: President, J. S. Mills; Vice-president, James W. Silver; Secretary, C. R. Henry; Treasurer, T. B. Young.

The club expects to stage a Tournament during the Fall on the Municipal Golf Links in Forest Park and compete for the Jackson Johnson Trophy. For information see Secretary C. R. Henry, 4061 W. Belle.

NICE AND MONTE CARLO TO HEAR RACE ARTIST SING IN GRAND OPERA

Washington Soprano, Lillian E. Tibbs Studying Under Foreign Masters

WASHINGTON, D. C., Sept. 2.—In a communication just received here by friends of the popular Race soprano, Lillian Evans Tibbs of this city, she is now studying in Paris. It was learned that she has been engaged to sing in opera at Nice and Monte Carlo. The young artist left for Europe several months ago to pursue her vocal training under foreign masters. She is the first colored singer to be engaged to sing in grand opera abroad.

A's Finally Win

Tuesday—The A. B. C's downed the Cuban Stars in the fourth and final game Tuesday, 10 to 5. Baker, Gurley and Long contributed much to the defeat of the Islanders with long and hasty swats good for extra bases:

A. B. C's	100	500	22x—10 15 1

Edgar Brown, former National champion, was defeated in the finals of the National Tennis Tournament at Bordentown, New Jersey, by a 21 year old opponent, Ted Thompson of Washington, 6-4, 3-6, 6-4, 4-6, 6-0.

Miss Isadore Channels was defeated by Miss Lula Ballard for the ladies' singles championship.

Tilly Holmes and Ted Thompson, E. Stitch and C. Smith for the men's doubles championship.

The dangerous Jock Malone is the latest of the victims to face that terrific fighting machine known as Ben Tiger Flowers from Georgia. And fast and furious was the slaughter at the Booker Brayes field in the Hub city last Friday. Biff, biff, biff went the gloves of the dusky boxer as the pale skin of his opponent all through the ten rounds, beating the latter about the face and body until he was crimson.

Only once in the eighth round did the match-heralded Irish lad look anything like what he was cooked up to be, and that was when he got a straight right through the almost impregnable defense of the Deacon and gave him an awful jolt, that it took a little time to shake off, but it blew came too late for the St. Paul boxer was so winded that he was unable to follow up the blow to advantage. In another round Jock managed to go along on a par with his opponent, but the other eight were Flowers' and easily gave him the decision. Malone weighed 155 while Flowers weighed 161.

Flowers is scheduled to meet a certain white whirlwind from New Orleans by the name of Martin, in Cleveland, Ohio, next Monday.

In an unfortunate ending to his fine showing while here in the U. S., Black Bill, Cuban fly and bantam weight fighter, lost on a foul to young Dencio Philippino flyweight, in a ten round farewell bout fought at the Common Wealth Club in New York, Saturday. It gave the little Cuban champion a record of 11 victories and 1 defeat during his brief stay in this country.

Bill will go to South America for a series of bouts.

George Godfrey, the black shadow of Luperelle, completely overwhelmed his giant opponent, Mike Conroy, in a scheduled 10-round heavyweight bout in Los Angeles, last Wednesday night.

The Belgian fighter, although game, proved as easy prey for the veteran colored fighter, who punished him severely in the second round that the referee stopped the massacre and awarded the decision to Godfrey.

Before a gallery of 350 spectators many of whom were skeptical of his ability as an aviator, Joel Foreman, 24 years of age, Los Angeles' first colored American flyer, piloted his plane to a height of 2,000 feet, made several nose dives and did a series of half-rolling stunts, which were part of his exhibition at the Eagle Airport, Ninety-second and Western avenues, for the benefit of the Dunbar Hospital.

Foreman, who is a Los Angeles boy and former student of Los Angeles high school, undertook the study of aviation immediately following the Great War at the Eagle Airport. There, with the aid of instructors, he learned to fly and perform the stunts which thrilled his spectators Sunday.

De Hart Hubbard had better watch his step as we find his jump, for from Paris comes the word that a superhuman Haitian youth by the name of Sylvia Cator made a leap of 7.72 meters, or a fraction over 25 feet 4 inches in the French capital the other day and shattered the national record.

When a rank dark horse comes so close to a veteran nose, which has already been years there is the best four years, it is time for somebody to be taking notice.

ORNITHOLOGY

Cultivate Bird Love

Since my return this summer from the University of Iowa, where for the past three years, I have been a student in the Science of Ornithology, I have been asked by many friends both intimate and casual what Ornithology was all about and what course in the biological field its embraces. It is with this view that I have undertaken to write this article so that to those of whom this science might appear foreign, will be enlightened on the subject.

The science which treats of birds, is called "Ornithology," derived from the Greek word meaning bird. It is a comparatively new science, having come into its own a little over fifteen years ago. This science deals exclusively with birds, the attributes and characteristics of them.

Development of Ornithology in North America

It is indeed interesting to note how this science came into existence and how it has developed in North America. In prehistoric times birds were known only as for food and clothing. There were no written documents on birds. But since that time birds have awakened other more ests than utilitarian. In the latter part of the 16th century, notes on birds were traced back to the early 16th century. There were no books on birds until the middle of the 18th century. The first of the North American birds discussed were the "Wild Turkey" and the "Humming Bird," and the first writing on birds was done by the colonists.

Economic Importance of Subject

There is no subject in the field of natural science that is of greater interest than the important position that the living birds occupy in the great plan of organic nature. The relation of birds is so complicated and has such far-reaching effect upon other forms of life that the mind of man may never be able to trace and grasp it, and the more we learn of the beautiful creatures, particularly their food habits, the more we will learn of their appreciable value to man and his surroundings.

We must not forget that the native birds are one of our nation's most valuable assets. If we destroy them, in a comparatively few years, the insects will have multiplied to such an extent this truth will be denoted of their foliage, plants will cease to thrive and crops cannot be raised. These are not fancy, but plain facts. A very large proportion of the food of birds consists of insects. Practically all the insects devoured by birds are injurious to plants or animals and consequently harmful to man. Another large element in the food of birds consists of small mammals, such as field mice, ground squirrels and rabbits.

Cultivate Bird Love

We must cultivate bird love. Teach the children not to destroy them indiscriminately. Teach even adults not to ruthlessly destroy natural beauty. We must begin now to save these creatures from destruction and even extinction to which many have fallen victim. We must learn to protect them before further damage is done. We should not wait until the treasure is gone. We have no right to destroy that which forms a valuable part of our country and rob the generations to come of the privileges which have been ours.

I hope in little articles will enlighten many on the subject of Ornithology, and will be the medium for starting many others on the road to knowledge, of our wild, feathered friends.

ROAD TROUBLES SOON TO BE OVER IN MISSOURI

JEFFERSON CITY, Sept. 2.—The road bothers of Missouri tourists are soon to be a thing of the past, according to B. H. Piepmeier, chief engineer of the state highway system, who delivered a message over the radio Monday.

In telling his invisible audience in this and other states what Missouri was doing in building modern highways, the chief engineer asserted that "we will complete this year more than one thousand miles of hard roads and the department's present program calls for the completion of more than one thousand miles in 1926."

By the end of 1926, Engineer Piepmeier said, approximately one half of the system will be hard-surfaced and many additional miles will be graded and ready for surfacing. Actually 85 million to 90 million dollars' road bond issue will have been expended.

THE PRESIDENT IS RESPONSIBLE FOR SEGREGATION

In a recent conference with a committee from The Equal Rights League, in Boston, Senator W. M. Butler of Massachusetts, who is also Chairman of the National Republican Committee, is quoted as saying he did not favor legislation to abolish segregation in the departments of the Government at Washington, for "Segregation is an executive and administrative matter."

That is just what The Argus has claimed from the beginning. Segregation started under the republicans and it is up to the republicans to eliminate it. Now that we have a republican President and Chairman of the National Republican Committee from the same state and the Chairman says: "Segregation is an executive and administrative matter," then it is squarely up to President Coolidge, as Chief Executive of this Government, to either inform the heads of the various departments of the Government to clean out this humiliating condition, or, issue an executive order himself abolishing segregation in all the departments of the Government.

Chairman Butler is also quoted as saying that he understood that there is little segregation in the departments. This is a very poor excuse for its existence. However, granting there is little segregation, since it is against the fundamental principles upon which our Government is founded, even "a little segregation" should not exist with the knowledge of the Chairman of the National Committee, who is also a Senator, nor with the President, who has proclaimed "Law Enforcement" as a cardinal principle of his administration.

While filling out the term of the late President Harding, Mr. Coolidge was well informed as to the existence and far reaching extent of segregation by the Government in the various departments in Washington. It was hoped that after he assumed the duties of President "in his own right," he would act officially in this matter. In fact, we were informed during the campaign last fall, that if Mr. Coolidge was elected, he would do many things for the race, including the abolishing of the menace of segregation. However, six months of his administration have passed and not even a single appointment of a Negro has been made by Mr. Coolidge, serving "in his own right" as President.

The period of "watchful waiting" has about expired and the time for action is at hand. While the Negro has been very patient in his watchful and hopeful waiting, he will not always remain so. There is a limit to human endurance and even patience can be worn to a frazzle. Negroes are becoming restless and will soon be demanding action from their Chief Executive, not only on segregation but on suffrage as well as appointments.

Tell us, Henry Lincoln Johnson, tell us, did you as Republican National Committee from Georgia, approve or endorse Marion O. Dunning as Collector of Port at Savannah, Georgia?

C. G. Williams, whom some have been disposed to call, "a traitor of his race," has been relieved of his "$200 per" job in the Food and Drug Department of the State. The news sounds rash, when one considers how near it seemed that "C. G." came to selling his very soul for the job.

LOOKS LIKE LILY WHITISM

We have noted with a deal of interest that there have been quite a few meetings recently, throughout the state, in the interest of the candidacy of Senator George H. Williams, who will seek the Republican nomination to succeed himself next year in the Primary.

Our interest in the matter has been chiefly that of one watching a passing show at a distance merely noting the points of interest as we see them. The one thing we have observed is that so far as we have been able to see there have no Negroes invited to any of these meetings held in the interest of Senator Williams. Our observation and general belief is that these meetings have been of the "lily-white" stripe, which we regard as a fore-runner of a general plan to eliminate the Negro from the party councils in a brazen and bold way. This is our view of the situation, looking from a distance.

We do not know that the Senator himself is the chief promoter of these meetings, since we have not been invited to any of them, nor has any colored person in the state so far as we know, but we do know that the Senator has been a party to these meetings. Dr. Clement, Nat'l. Committeeman and Mr. Phares, State Chairman, have also been parties to these lily-white gatherings of the Republican leaders of the State.

Of course, we are not alarmed over the action of the bosses at this time, we only wish to call attention of these facts to the thoughtful, intelligent Negro voter of the state.

RELEASING NEGRO UMPIRES

The news of the release of all the Negro Umpires by Rube Foster, owner of the American Giants and President of the Negro National Base Ball League, is rather disappointing to the many thousand fans who have so loyally supported the popular sport, for lo! these many year.

The colored people out of race pride, by their support, have enabled the promoters to develop players equal to those found in most of the major leagues in the white clubs. It is naturally expected that Negro Umpires would be developed along with the players. We feel safe in saying that the fans have been satisfied with the colored umpires. Of course, there have been some "kicks" on the decisions, but we find equally as many "kicks" coming from the players and fans in the major white leagues as are found at Stars' Park.

Releasing the Negro Umpires at this time is a step backward in the development of the national sport among Negroes. It takes away our pride. It is humiliating. It robs the fans of the very thing for which they have labored and paid.

By releasing the Colored Umpires at this stage of the game, President Rube Foster enshrouds himself with suspicion. A general suspicion that somewhere in his composition there is that undying belief in the superior mind of the white man; that in matters affecting us, the white man must be the arbiter. He thinks that Negro players play better when the white men call the game, thus reflecting discredit on all the Negro players, owners and managers including himself.

We are told that Rube is mad because his team, the American Giants, did not win the pennant. This may, or may not be true, but one thing has been made very plain in this matter, and that is the unadvisability of Rube being the president of the league if confidence is to be maintained in Negro base ball in this country.

"THE CHURCH AND SOCIAL WORK"

One of the chief characteristics of the widening scope of activity of the church during the past two decades has been its interest in what is called modern "social work." Almost in every city there are to be found some few churches which have carried this idea into a very effective program of social service through the church. They have developed such activities as clubs for men and women, and boys and girls, gymnasium classes, playgrounds and other recreational activities, and in some instances, conducted a type of friendly visitor service among the women in the community which is served by the church. Such a program, however is limited to a very small number of churches because of the cost for the necessary equipment and trained workers. Most churches however, through their auxiliaries, deaconess boards, clubs and other groups conduct, on varying scales, activities which could be classed as social work.

If we consider modern social work as organized effort to prevent relieve and decrease delinquency, disease and crime by constructive effort aiming at the elimination of the causes of all social maladjustment, then we can readily appreciate the large place which the church has in the promotion of such work. The church has from its early history worked not only for the spiritual welfare of mankind, but for his general well being. In more recent years, however, greater emphasis is placed upon the relation of all adjustment of individuals or groups of individuals has been made in order to attain the very best in physical, mental, moral and spiritual life.

While this change of attitude on the part of the church has been taking place there have grown up numerous social agencies of all kinds and descriptions working in different fields. These organizations, working with the colleges and universities, hence have developed a scientific technique and method of approach to the problems arising out of individuals and groups of individuals living together. Thus we have the health agencies like the hospitals and tuberculosis societies, organizations looking after the welfare of children like orphans homes, and child care and societies; other agencies dealing with the prevention and decrease of crime and the causes of crime; and still others serving the need and dependency of the aged and studying the problems of the mentally deficient and defective. Then too there are agencies which have more or less of an educational nature and which promote good citizenship through recreation, health activities, child welfare work, etc. Because of the many and varied racial groups living in large centers of the population there have also developed agencies which combine their efforts almost entirely to particular racial groups and have as their purpose the improvement of the general social welfare of the members of those respective groups. All of these organizations then are working for general social improvement. They have developed trained workers and specialists to conduct their programs. They have the necessary equipment for organizing and reaching the people with their educational propaganda. What relation then will the church bear to these many organizations, which in the last analysis are merely auxiliaries in the work which the church is doing for moral and spiritual uplift of mankind?

It seems to us that herein lies an excellent opportunity for the church to co-operate with all social agencies as well as lend them every support in their work. But over and above that the church should use to the limit all existing social agencies for the accomplishment of the tasks for which they were organized. If then a problem confronts the church and a social agency or a group of social agencies can be of aid in its solution the question should be determined right then and there as to whether these agencies are to be called into service, or whether the church will endeavor to solve the problem on its own initiative. It would seem wise for us to study the true function of all of our social agencies to command their services whenever and wherever needed and desired, and to bear in mind that all of the social agencies exist for the people from whom they serve and are therefor servants of the people. If such a course is followed it should lead to the church and its organized body and the social agencies as organized bodies working toward the same goal with every possible co-operation existing between them.

Let us use our social agencies to the limit and make them serve our community needs. We can then fulfill more largely the purpose for which they were organized.

PROOF OF EVOLUTION

SANTA ANA, Cal., Sept. 1—Thos. E. Pickerill, widely known writer and humorist, made public today his discoveries in the theory of evolution. That there can be no shadow of doubt man came from the lower animals is disclosed from researches this writer has made in the archives of the English and American languages and by excavation of innumerable idioms, fables, metaphors and other figures of speech. He says:

"Certainly man came from the animal. The facts are indisputable. Jr. represibbs. Darwin didn't know half of it. Darrow is but a superficial thinker and Huxley's prognostications fade into insignificance when the facts are revealed. Take our language. It all points to animal life of the lower order. In the first place man is born by the stork; then he crawls and whines and before long he is a regular little pig. He grows up like a weed.

"Later on in life he is a poor fish and a sucker, but often acquires horse sense. Road-hogs flourish, end-seat-hogs abstruct, and the early bird gets the worm. People look sheepish, act rabbish, crawfish, grow, snap and bite the hand that feeds them. Women are butterflies and vampires; some husbands are insects. Both men and women are bullheaded, and some are snakes in the grass. Occasionally one meets a consummate ass. Wise old owls, sly old foxes, and eagle eyes prey upon their fellowmen. Sometimes a dirty dog runs amuck. Kangaroo courts are common. Clodhoppers hop and jaywalkers walk. All of us are stung without a bee in sight, and the female is more deadly than the male.

"Aviators hop off and fly. Old maids get catfish, and maids that are not so old are kittenish. Men are sharks, old bears, wolves in sheep's clothing, and pull the wool over our eyes. Some folks are 100 per cent bull. We flounce heroes. Who is not acquainted with some old crab or silly goose? Men are lobsters, they shut up like clams and some crawl in their holes. Every countyseat has its courthouse rat; every town has its chickens and old hens. The whole world is infested with parasites.

"We develope elephant hide, horse's neck and a whole of a lot of other things. We are land-hogs, sea-dogs, turtle doves and otherwise fine birds such as lame ducks. We are mere horses, hunks of cheese, little shrimps and often wiggle out of things. We do the goose step, the turkey trot, and the camel walk while we get a hump on ourselves. We have our bear cats, hare hetors, and jack-leg lawyers. We sing like canaries, laugh like hyenas, shed crocodile tears, and hound and buffalo one another. We are stubborn as mules, slick as eels, but often have to pony up. We are big frogs in little ponds and little frogs in big ponds. We make fun pigeon-toed, walrus-toothed, pig-nosed, monkey-faced, chicken-hearted and cock-eyed; and all of us are more or less sucker. Finally we sing our swan song and croak; still the half has never yet been told. But it's all monkey-business and it gets our goat. Ain't science the snake's hips?"

WHY THE SPIRITUAL IS TRUE ART

By CATHERINE GREGORY

Penn School, St. Helena Island, S. C.

So very often these days, you pick up a magazine or a newspaper and you see an article on "Negro Folklore," or perhaps a comment on Negro singing. Sometimes the article is a plea to the Negroes, asking us to preserve our "spirituals" and folk tales. Then again, perhaps, some man or organization is offering a prize for the best collection of stories and songs. One of the reasons for the renewed interests in the Negro songs is that people have come to realize the beauty and true meaning of these songs. They know that to sing these "spirituals" and to talk about them will keep their beauty and meaning alive.

Negro music is typically American music. It grew out of the lives of enslaved parents. No other race in bondage has been able to express and comfort themselves in songs as have the Negroes. The Indian is fast becoming an extinct, unemotional race, because he had no song to offer in the time of trouble. The Negro who was brought from a distant shore and was planted in a terrible bondage sang, yes he sang so loudly that the world had to stop and listen!

These "spirituals" express the religion of the Negro who believed implicitly in God and who did not question his being. He knew that some day God who sees everything as he expresses himself in the song, "Oh He sees all you do. He hears all you say. 'My Lord's riding all the time,' would make the burdens lighter. I like this little verse that says:

"For in our songs we tell our woes,
Our sorrows, and our fears;
They are the expression of our souls.

To a God who always hears."

There is nothing comical about the Negro songs. There is a thought back of each song. The songs are full of real Christian sentiments. You may find a spiritual to fit practically every occasion. How perfectly simple Negroes expressed their sorrow in this "spiritual." "How can I pray, when my heart is burdened down?" Then it is in this same "spiritual" that this beautiful prayer is offered: "Crown me, oh Lord, when my heart is burdened down."

In this "spiritual," "Steal away to Jesus," Negroes see God in nature when they say: "My Lord calls me. He calls me by the thunder, the trumpet sounds within my soul, I ain't got long to stay here." What is religion, if it is not the seeing of God in the everyday things?

Negroes had, too, their songs to celebrate the birth, crucifixion, and resurrection of Christ. They sang: "Mary had a Baby, sing oh Lord." "They crucified my Lord," and "The angels rolled the stone away."

During the time of hardship, is it not comforting to know that Negroes could lose themselves so completely for a while and commune wholly with God? How much they must have helped each other, when they sang: "Jesus is a comin,' don't you get weary, there's a great camp meetin' in the promised land."

Who would not have felt renewed in spirit when he heard this "spiritual": "Let us cheer the weary traveler along the heavenly way."

There is also art in the songs of the Negroes as well as a great deal of heart. It has not ceased to be a wonder that music like this could be made by the Negro who knew nothing about the art of music.

George Nicholas Ballanta, a native of Africa, is now engaged in intensive research work recording the music of his people in the primitive form so as to preserve it for the world's music lovers. He spent several years in New York taking an advanced course in music in preparation for this work. He spent several weeks on St. Helena Island collecting spirituals. He collected and wrote the music to over a hundred of our Island "spirituals." This book of spirituals has just been published.

STUDY OF NEGRO LIFE HISTORY CONVENTION

Tenth Anniversary Will Be Celebrated At Washington D. C. Sept. 9-10. Many Interesting Subjects Will Be Discussed.

WASHINGTON, D. C., August 31.—On the 9th and 10th of September the Association for the Study of Negro Life and History will celebrate its *Tenth Anniversary* at Washington, D. C. Coming to the end of the sixth year of this first systematic effort to embody the civilization of the Negro, the management invites special attention to this occasion. It marks an epoch in the development of the Negro. The race has been gradually taught that no group can make much progress without preserving a record from which its program for the future can be worked out of the wisdom which can come only with an appreciation of the failures and successes of the past.

The Association has therefore, increased in favor with many who at first did not take it seriously. Some thought that the society might not add anything new to the already voluminous and worthless literature on the Negro. The work did not proceed far, however, before the scientific publications of the Association convinced intelligent people that this organization had invaded a new field to render the cause of truth a distinct service. It has published facts in scientific form, believing that facts properly set forth will tell their own story.

Frederick L. Hoffman, statistician of the Prudential Life Insurance Company, likened the movement unto the important work started by John R. Green in popularizing the history of England. A. A. Goldenwiser characterized the enterprise an excellent one, deserving an enthusiastic support. Dr. J. Franklin Jameson, editor of The American Historical Review, endorsed the effort as an undertaking deserving a cordial welcome. Prof. W. B. Munro, of Harvard University, acclaimed the first publication a historical journal of excellent quality, and Kelly Miller, styled it the most scholarly magazine ever published by Negroes.

And this is the standard to which the Association has adhered. It has not tried to whitewash the Negro, proclaiming his achievements without noting his failures. Furthermore, it has not endeavored to publish what the whites have thought of the Negro, not what they have done for their brother of African blood, and not what they have done against him. The aim of the Association has always been to adhere to the new plan of presenting the Negro himself to the world as reflected in what he himself has thought and felt and attempted and accomplished. In this way the Association has secured the support of both races who appreciate the value of saving the records of the Negro that the race may not become a negligible factor in the thought of the world.

In working out the program for this celebration of the Tenth Anniversary all aspects of Negro life and history have been taken into account. Dr. Alain Leroy Locke, of Washington, and Dr. James H. Dillard, of the John F. Slater Fund, will speak on the civilization of Africa. Mr. R. Maurice Moss, of Baltimore and Mr. Abram L. Harris, of the Minneapolis Urban League, will discuss present day conditions of the Negro in Baltimore, Pittsburgh, Philadelphia and Cincinnati. Prof. William T. Laprade of Duke University, President J. P. McConnell of State Teachers College of Virginia, and Dr. Charles H. Wesley of Howard University, will deliver addresses on the Negro before the Civil War.

On this occasion the program will carry something new. Realizing the importance of definite knowledge of the achievements and possibilities of the Negro in the economic world, the Association has engaged Mr. W. Gomes, of the Bankers Fire Insurance Company, Mr. C. C. Spaulding, and Prof. W. G. Pearson of Durham, N. C., to discuss the importance of making a survey of the actual achievements of Negroes in business, their opportunities, and the causes of their failures.

At the luncheon, several persons will deliver informal addresses, and then will follow the second evening session devoted exclusively to the Negro Press. Mr. Robert S. Abbott, of The Chicago Defender, will preside; and addresses on the development of the Negro newspaper and the province of the Negro Press will be delivered by Dr. L. H. King, editor of The Southwestern Christian Advocate, and Mr. Robt. L. Vann of the Pittsburgh Courier. Mr. E. Washington Rhodes, of the Philadelphia Tribune, and Mr. Carl Murphy of the Baltimore Afro-American, will participate in the general discussion.

The last session will be devoted exclusively to the Negro Church. Rev. Wm. J. Imes, of Philadelphia, Bishop L. W. Kyles of the A. M. E. Zion Church, and Bishop R. A. Carter of the C. M. E. Church, will present the progress and achievements of the Negro Church. Miss Estelle E. Pinkney and Dr. Charles Sumner Wormley will furnish music for this and other important sessions.

The public will be glad to learn, too, that the research work of the Association has continued along serious lines. In the ten volumes of The Journal of Negro History already published there have appeared in current issues articles by the leading scholars in the field of Negro history. Among the contributors to the forthcoming issue of the Journal of Negro History are Dr. Carter G. Woodson, Dr. Charles H. Wesley, Dr. Alain Leroy Locke, Dr. Lorenzo J. Greene, Dr. Luther P. Jackson, Dr. Monroe N. Work, Dr. Arthur A. Schomburg

Lesson for September 6

PAUL WRITES TO THE PHILIPPIANS.

LESSON TEXT—Phil. 3:7-16; 4:8.
GOLDEN TEXT—"I can do all things through Christ which strengtheneth me."—Phil. 4:13.
PRIMARY TOPIC—Paul and His Friends.
JUNIOR TOPIC—Paul Pressing Toward the Goal.
INTERMEDIATE AND SENIOR TOPIC—Choosing the Best Things.
YOUNG PEOPLE AND ADULT TOPIC—The Christian's Goal.

The contents of the epistle may be summarized as follows:

1. Salutation (1:1-2).
2. Thanksgiving and prayer in which he shows his loving interest in them (1:3-11).
3. Triumph of the gospel in spite of opposition (1:12-26).
4. [illegible] promise to send Timothy and Epaphroditus (2:19-30).
5. Exhortations and warnings (3:1-4:1).
7. Renewed appeal for unity (4:2-9).
8. Personal matters (4:10-20).

The essential message of Philippians is a revelation of the mind which should dominate the Christian.

1. **All Things Loss for Christ (3:7-9).** The occasion for this confident declaration was the claim of the Judaizing teachers for legal righteousness. In chapter 3:4-6 he enumerates the grounds upon which he had a right to base his claims for legal righteousness.

1. "Circumcised the eighth day." In keeping with the demands of the law.
2. "Of the stock of Israel," related by blood and birth.
3. "Tribe of Benjamin," from which the first king was chosen, and which always remained loyal to the nation.
4. "An Hebrew of the Hebrews." In contrast with some of mixed parentage.
5. "Touching the law, a Pharisee," the best most zealous for the ritual of Judaism.
6. "Concerning zeal, persecuting the church." A passionate effort to crush the church.
7. "Touching the righteousness which is in the law, blameless," as to the condition of life demanded by the law.

All of these, valuable in themselves when placed alongside of the excellency of the knowledge of Christ were abandoned for a better thing. The vision of Christ gave him the true perspective of values. In this light he saw the utter worthlessness of these things. After some thirty years of trials and persecutions as appeals him no other human being ever knew, he has no regrets, and still counts them as refuse in comparison with what he had gained in Christ.

II. **Paul's Present Desire** (vv. 10-11)
1. "That I May Know Him."
Personal acquaintance with the Lord was his supreme desire. To know the saving grace of Christ is good but to know Christ is infinitely better.

2. "The Power of His Resurrection." This is an advance thought over personal acquaintance. It is the expression of the life of Christ through the apostle. It is the power you gain to overcome, "the mastery over sin and self."

3. "Fellowship of His Sufferings." Not only identified with Christ in His sufferings by imputation, but that he might fill up that which is behind of the afflictions of Christ (Col. 1:24).

4. "Attain Unto the Resurrection of the Dead" (v. 11).

This will be accomplished when the Lord comes (1 Thess. 4:16-17).

III. **Pressing Toward the Goal** (vv. 12-16).

Paul clearly grasped the meaning of the perfection in Christ, yet he was keenly conscious of his personal limitations. Herein is expressed the true law of progress in the spiritual life.

1. Confessions of Limitations (v. 12). The first step towards progress is to be profoundly dissatisfied with personal attainments. No intellectual advancement is ever made by those who think they know enough, who are satisfied with what they have.

2. Conscious of a Transcendent Goal (v. 13).

The Christian life is an upward calling.

3. A Resolute Determination to Reach the Goal (v. 14).

He declares, "This one thing I do."

IV. **The Right Occupation of the Mind** (vv. 4:8).

The mind controls the man. As a man thinketh in his heart, so is he. When once the mind is guarded and controlled by the peace of God, it will dwell upon spiritual things.

BEREA PRES-BYTERIAN
Miss Edna Berenice Johnstone, after a considerable period of ill health, during which her intent faith was developed and her resignation to Providence became complete, entered into rest Wednesday, 1:05 a. m., aged twenty-three. She taught three years at John Marshall and as a regular and valuable member of the Sunday school staff. She loved to read and the endless life upon which she has entered will be endless growth of soul power, deepening knowledge and the mastery of God knows what is at each turn of the road and when to call His little ones home. *** The bunching of the Fath Rally was truly unexpected. Sign your card and mail it to the stated clerk, as did a third of the membership the first day. Team work will count for much. "God's promises were never meant to ferry our lazy selves like a boat; they are to be rowed," our oars." (Beecher). We welcome home all our vacationists. Come Sunday 7:30 p. m. and tell some experiences and of conditions in our vacation ranges. The Instruction Committee of our Board of Education, Monday, refused to take any action on requests for the reading of Bibles in our public schools. It is required in New York, Philadelphia and Washington. If the aim of education is the formation of character, there is no better character builder than the Bible. Its sphere is not science, but duty, morals, the future and God. Obeying its precepts makes the most stable, aggressive, courageous and self-sacrificing people. We commend those who made the request and will do likewise.

REV. EVANS AT LANE SUNDAY

There is much to be said of a sermon that is simple and fine, and local Christendom is saying many complimentary things of the message delivered by the young Rev. Samuel Johnson last Sunday morning at Lane Tabernacle C. M. E. church, Newstead and Enright avenues. Nor did they say at saying sweet things about the message, but they are just as fond in their praise for the messenger. Rev. Johnson came into the picture two weeks ago at Lane when Rev. H. W. Evans departed for a vacation, and has spoken to capacity crowds each Sunday during his absence. He is surely a man of the hour. The delights of the ministry and it is obvious that local Christendom will help him to get there. Mr. J. M. Chiles of the Y. M. C. A. proved to be a remarkable bee-maestro for Mr Gordon Simpson at the variety program last Sunday night. Mr. Chiles brought a message on the religious education of the youth. Misses Cecille Oliver and Mandelle Tibbs and Mrs. N. O. Bray did their parts with feminine ease and grace. Mr. Elmer E. Phelps made a delightful impression on the audience as a vocalist upon attending the Liberty society last Monday night, and was well entertained. Meslames Helen Robertson and Ella Marmon and Mr. Charles Harvey sang vocal solos and were asked to encore. Mr. E. M. Kelly shook the pillars of the temple with a comedy recital. The illustrious Rev. H. W. Evans, pastor of Lane, has been absent with his family visiting in Chicago, will be present Sunday.

This is only one of the many hundred of voluntary letters received daily, glorifying Dr. Fred Palmer's Skin Whitener Preparations. It is simply amazing the way these marvellous beauty preparations take away the darkest skin lighter, clearer and free from pimples, freckles, oiliness, large, ugly pores and sun tan.
Ladies in all walks of life, from Maine to California and from the Great Lakes to the Gulf, are improving their beauty, renewing the youthful texture of their skin and lightening their complexions with Dr. Fred Palmer's Skin Whitener Preparations, and there is a special preparation for each need. The Skin Whitener for lightening the complexion; Skin Whitener Soap and Powder for smoothing and beautifying the complexion and Hair Dresser for properly grooming milady's tresses.
Any complexion, no matter how dark, muddy or oily, Dr. Fred Palmer's Skin Whitener Ointment will transform it like magic into a lovely, soft, velvety skin—the blotches and tan marks vanish, pimples clear up, the skin becomes clearer and lighter and the excessive oil which causes "shine" disappears.
Women everywhere are simply wild about Dr. Fred Palmer's Soap and Powder, for it is delightfully fragrant, clings to the skin nicely and has a soft satiny appearance. Wind does not blow it off, it prevents oil from forming on the skin and keeps the skin from chapping in all kinds of weather.
Dr. Fred Palmer has developed the most marvellous Hair Dressing known to science, one that makes the hair straight, soft, long and lustrous, removes dandruff, keeps the scalp healthy and makes the hair grow. No hair too stiff or crinkly for it to improve.

THE TOILERS

By William D. Robinson

Preston News Service

Daybreak, and the whistles shriek
The call to the daily task;
Just bite to eat and a goodbye kiss
This is the toiler's morning bliss,
And this is all they ask.

Noonday, and the dinner call;
For tired limbs, an hour's rest;
Just a bite to eat, and a dream of home
This is the toiler's temple dome
Where all his faith's expressed.

Evening, and tired aching limbs,
Now homeward slowly turning;
A child's joy cries and a soft warm kiss
This is the toiler's evening bliss,
Each day's hard toil earning.

And thus on thru sweat and tears,
Thru light and gloom hope and fears
Man measures out his tiny span and dies,
With sweat and tears blest in his eyes,
Of joy, of faith and fears!

A SOUTHERN EVENING

By William D. Robinson

Preston News Service

Thru my open window comes a stealing
A gentle southern breeze, sweet with the breath
Of dew-kissed roses and honeysuckles;
Comes the sweet thrilling songs of mating birds;
The trilling ripple of a distant stream
And drifts anon the thrumming melody
Of a banjo's strings—and sweet bits of song,
And children's laughing voices blent in play.

Then sweeps into my heart a flood of peace
And joy and sweet contentment soothing out
That dread uneasiness clouding the soul
Of every one of Ethiopic strain:
I smile and let that gladness have its sway.

Be Beautiful

This column is conducted by Madame Katherine Wilson, author of "The Successful Hairdresser" and founder of the famous California Sun Parlor and School of Beauty Culture in Omaha, Nebraska. She will be glad to answer in this column all questions of a reasonable length. When space will not permit, she will answer correspondents who enclose postage for a return reply. Questions for her should be addressed to Mme. Katherine Wilson, 3423 Indiana Ave., The Associated Negro Press, Chicago, Ill.

Annabelle—Superfluous hair about the face and arms is quite a common affliction with ladies of our race. Light skinned persons who have a heavy growth of black hair are particularly affected because the hairs are more easily seen.

There are many wax preparations, depilatories and sulphur concoctions which will give temporary satisfaction, but the same effect can be gotten with an ordinary safety razor. The result is that the hair comes out thicker and coarser with each application. The reason for this is that the roots of the hair remain healthy and the hair continues to grow unless the root is destroyed.

There is only one way that we know, that hair may be removed safely and permanently. The use of electricity, either by the needle or radium will turn the trick. This method is painful and costly so be sure that you have an expert in the line to perform the operation.

Madame X.—Glad to know that you absorbed what I had to say last week about the finger nails, arms, hands. If we are to be beautiful we must be beautiful all over and no one part can be neglected.

Personally, I prefer the gentle rounded or oval shaped nail. Extremely pointed and odd shaped nails or nails allowed to grow too long give one the impression of poor taste just as the man who insists on wearing a bright red tie with a dark suit.

Persons of refinement seldom put a high gloss or varnish on their nails. Would advise against the liquid polish for the same reasons. A soft rose or pink polish rubbed in well with the palm of the hand or a chamois buffer gives the best result and does not make the nails brittle.

Miss Eleanor W.—Yes, the hairdresser's legislation law has been passed in Missouri, and also in Illinois. The requirements are quite rigid already and soon all beauty culturists will have to be well prepared as the doctor or dentist in his particular profession.

I would advise that you study the theoretical branches of the trade even though you have had several years of practical work. If you will write me, enclosing a stamped envelope, I will be glad to give you more information about the state examinations which are sure to come, in every state. I will be glad to give all persons interested in the practice of beauty culture, any suggestions that are within my power to enable them to pass these examinations.

THE WHY of SUPERSTITIONS

By H. IRVING KING

BUBBLES AND MONEY

IN THIS country and Canada a common superstition is that bubbles floating on a cup of tea or coffee signifies that money is coming to you. In some sections it is considered necessary to try and take up the bubbles in a spoon; you will have as many dollars as you can catch bubbles. This is a remnant of the ancient magic art of hydromancy, divination by a cup of water as practiced by Joseph in Egypt. See Genesis 44:5. Water was used for divination by the Egyptians because Isis was sometimes regarded as the earth when fecundated by the waters of the Nile and a vessel of water was therefore carried in her processions. In ancient times any troubling of the waters, in a pool or in a cup, was considered of significance. In modern necromancy the coffee cup has succeeded to the divining cup of Joseph and tea and coffee to the fortunetelling waters borde before Isis. But as of old, the bubbles rising in our divining cup mean something.

But why money? Because the influence of Egyptian mythology upon Roman mythology was strong and though the cult of Isis was but slightly identified with the cult of Juno; yet Isis was the chief of the Egyptian goddesses as Juno was the chief of the Roman goddesses.

So it is that breath of Juno that rises in bubbles in our coffee cups and Juno, under her name of Moneta, means money. Doubtless when the ancient Romans practiced this rite with a cup of water they invoked the goddess.

SMILES

I ASK not luxuries to please
My taste for social vanities,
Although I frankly do confess
I like them rather more than less,
But luxury of time and space
To do the little deeds of grace
Wherewith to make a brighter

For fellow traveler on the way.
That is the part of plentitude.
I deem to hold the greater good.

NEGROES HIT COOLIDGE ON KLAN APPOINTMENT

Associated Negro Press

WASHINGTON, D. C., Sept. 2.—Failure of President Coolidge to appoint a Negro to an office of Federal value, and the appointment of a Klansman as Customs Collector at Savannah, have aroused the ire of Negro political leaders. Negro newspapers declare that Mr. Coolidge has not lived up to the hopes and expectations of those who so loudly praised him.

You Too Can Have Beauty

"I was not always as attractive as I am now. My hair, which should be a woman's greatest charm, used to be coarse and unruly due to dandruff, as my face was shallow and often bore ugly pimples.
"I had heard Exelento Quinine Pomade praised on all sides and I got a package and began using it as directed. The results were astonishing. My dandruff all left me and my hair began to get soft and silky then it was a delight to comb it."
"Then I began to use Exelento Skin Soap on my face and the results were equally pleasing. All blemishes disappeared and my face became soft, smooth and beautiful."

NEW YORK, N. Y., Sept. 2.—Eight trunks, ten cases, eight packages and one barrel, supposed to be too much for one man to carry, according to the Customs officers who met Eugene Le Bosse at Manchester, N. H., so they questioned the gentleman. He was quite frank in admitting that he was bringing liquor to some of his thirsty friends in America. The officials fined Mr. Le Bosse $1,200 which he was unable to pay, but promised to pay next week.

Beal Undertaking Company's Modern Building At 2726 Lucas Ave. Phone Bomont 2726.

The Only One Of Its Kind In The State Owned And Operated By Negroes.

A. L. BEAL
President Beal Undertaking Co.

The City of St. Louis is again reminded of what a wide-awake honest, businesslike man of our race can do by concentrated efforts.

The above cut is an exact likeness of the remodeled home of Beal Undertaking Company, which was recently completed. The present building has cut-stone and white enameled brick front, French doors and windows which transform it into an office of charm and dignity. The building comprises eighteen rooms including a general and private office, a private reception room for the bereaved family, Ladies' and Gents' rooms, casket and storage rooms, a large, sanitary morgue and a beautiful chapel. The newly equipped chapel has art windows which cast a soft, gentle light upon the interior lending a sympathetic air to the room. Beside its front entrance there is a side door, leading from the chapel to the covered driveway by which the attendants may enter the cars protected from inclement weather.

The other special feature is the guest Chamber, a neatly furnished bed-chamber for the use of out-of-town patrons who have charge of funeral arrangements or a relative, who must spend one or more nights in the city. They have but to notify the office and their transportation to and from the depiot and the guest chamber will be furnished them free of charge.

The entire arrangements throughout the establishment show much thought and study for the comfort and accommodation of their patrons.

The new, modern garage will house sixteen automobiles, all Cadillac service.

The Beal Undertaking Company stands out as a monument of the race as the natural result of concentrated efforts, patience, courage, honesty, years of toiling and sacrifice, and that bull-dog determination to win. Efficiency and courtesy have been the basis of their success.

Mr. Beal started in the undertaking business September 13, 1913, 2726 Lucas avenue, his present location, in a two-story residence, using the first floor for office, chapel and morgue, and the second floor for living quarters. By his untiring efforts and courteous service, with the assistance of his competent daughter, Miss Birdie Beal, he has built up a business second to none of its kind, owned and operated by members of our group.

In 1921, they added to the business a chartered Benevolent Burial Association to which a joining fee of $3.60 per family entitles each member of family to a $100.00 burial. This Association has proven a wonderful success as well as a blessing. It has enabled many families to care for their departed ones who otherwise would not have been able to do so. The Association has paid out $2800.00 to its members.

The Beal Undertaking Company will open their West End Establishment, 4229 W. Finney avenue, about October 1, 1925, with all modern conveniences for the accommodation of their West end patrons. Mr. L. V. Atkins will have charge as manager and the same courteous, sympathetic service that has always characterized the Beal Undertaking Company will be accorded the patrons of the new establishment.

rent articles and documents many valuable facts which are not generally known. The statistical report entitled "Free Negro Heads of Families in the United States in 1830," has been published. It presents an array of valuable facts eagerly expected by students informed thereof. It will meet the long-felt want of enabling the Negro to trace his past through these members of the race who at most a century ago had thus permanently established themselves in their communities.

Equal interest has been aroused by the publications of the "Negro Mind as Reflected by Letters Written During the Crisis, 1800-1860." This is an annotated collection of the letters of all sorts giving evidence as to what the Negro was thinking during that period. These letters cover two important aspects of Negro history, the point of view of the antebellum Negro who favored colonization and that of the Negro who believed that the uplift of the race could be best worked out through anti-slavery agencies.

The Negro in South Carolina During the Reconstruction has also been published. The work has made a very favorable impression throughout the country as an original treatment of a much-mooted question. The public has been especially impressed with the treatment of the social and economic condition in contradistinction to the effort on the part of most writers to emphasize merely the political side. One investigator reviewing this work says it is the compliment of having well established the truth that the history of the reconstruction has not been written.

The monograph on "The Negro in the Reconstruction of Virginia" is now in preparation for publication in contradistinction to the situation in South Carolina, we have here the study of the economic, social and political activities of the free man in a reconstruction state where the Negroes and their allies never had full control. For this reason the work is eminently important and will doubtless have an extensive circulation.

The Association has been fortunate in having had the cooperation of Miss Irene A. Wright, an investigator in the Archives of the Indies, Seville, Spain. In the first case she photographed and verified a collection of documents throwing light on the early history of the slaves in Havana, Cuba, a question which is of unusual importance for the reason that it has never been adequately illuminated. Miss Wright has also undertaken to collect some other documents with respect to the Free Negroes under the Spanish in Louisiana. She has found facts as to the status of these people and the efforts by which they maintained themselves in a world in which they lived and played a role peculiar to themselves.

All sessions, except the Luncheon, will be held at the John Wesley A. M. E. Zion Church, 14th and Corcoran Streets, Northwest. The Luncheon of the second day at the Whitelaw Hotel will be tendered free to all members who will notify the management in time to make the necessary preparation.

All who expect to attend the celebration are requested to notify C. G. Woodson, 1538 Ninth Street, N. W., Washington, D. C. The management will be glad to arrange for adequate hotel accommodations at reasonable rates.

Race Clause On Columbia University Application Blanks

By William Pickens
Associated Negro Press

Race discrimination is sending our civilization back toward the Middle Ages, and Columbia University in New York is the latest institution of learning to hit that trail. Last year the Ku Klux element in the school tried to drive a Colored boy out of the dormitories. The boy was brave, and so was the dean, and the attack failed.

But did it fail? For this year Columbia University, for the first time in its history so far as our information goes, has on its application blanks for dormitory rooms, a space for "Race." And there is printed on the blanks the very degrading and humiliating suggestion that the answer to this question is "desired in order to assist in congenial grouping in the halls."

That is certainly clear; the individual is no longer to be free at Columbia, but he is to be limited to some idea of "race" to which he accidentally belongs, although all of his friends and his most "congenial" acquaintances may, as a fact, be members of some other "race" than his own. Since when was every Jew more congenial to any other Jew than to anybody else? Does congeniality depend on the accident of prehistoric race connections or on personal qualities and tastes? Will a New York Jew and one from Russia be more "congenial" to each other than the New York Jew will be to other Americans from Harlem and the Bronx? For, mark you, this application blank does not seek to ascertain nationality or culture type, but Race, and they do not accept an answer that merely gives the applicant's nationality and citizenship or birthplace.

One young man who had already lived for three summer sessions in the dormitories, renewed his application for 1925 residence and filled in the "race" blank with "American," as the applicant belongs in fact to several "races." He received from Herbert B. Howe, Executive Secretary if the Committee on Men's Residence Halls, the following note, rejecting the application and calling for more specific information:

"Application lacking in information cannot be accepted for assignment. Will you be kind enough to fill out the enclosed blank in full and return for our files?"

On said application blank the university office had indicated that the information as to "race" was insufficient. Whereupon the young man wrote the following letter:

Mr. Herbert B. Howe,
Columbia University,
New York City.

"Dear Sir:

Enclosed you will please find my application for room in residence hall filled out to the best of my knowledge. The space where you ask for designation of race I have filled as specifically as possible. Like a very large percentage of the population of America (perhaps a majority), I am not a member of any one race, but of several races.

I was somewhat surprised to note on your new application form the space requiring a racial designation, for it is a well known fact, confirmed by ethnologists and sociologists, that any scientific determination of the race of a great majority of human beings is a very difficult and uncertain thing. I was even more surprised to note your reason for requesting this information—"to assist in congenial grouping in the halls."

It is indeed a sad commentary on American education, when university students must be grouped or segregated according to race in order to be congenial. I have lived in the residence halls at Columbia for the last three summer sessions and have never yet made race the only basis for the selection of my associates. It is therefore exceedingly difficult for me to believe that any large number of students at your great institution are so provincial as to make a similarity of race a sine qua non of congeniality.

So far as my room assignment is concerned, it makes very little difference to me with what racial group you place it as long as I am given one of the rooms asked for on the blank or one similar to it. If my neighbors do not prove too noisy or in some other way personally offensive, I can see no reason why any of them should be objectionable to me.

Very truly yours,

Then came the following from Secretary Howe:

My dear Mr.—

Your letter of April 11 is at hand. I am sorry that we cannot understand each other on the application for a room. Your position is perfectly clear, but despite sympathy for it, we find ourselves faced with facts which forced us asking the question as to grouping. Your last paragraph reads as if you were quite conscious of these same facts in our halls. If you care to apply in the regular way, we shall be very glad to make an assignment for you.

Sincerely,
(Signed) Herbert Da Howe,
Executive Secretary,
Committee on Men's Dormitories

The result was that the applicant was denied dormitories space, altho he had lived satisfactorily in the dormitories for several summers. He had to secure accomodations in "International House" which in name and aim, is a contradiction of this backward trend of our civilization.

For a great university in what is commonly thought to be the most cosmopolitan city, at least in the United States, to put such stress on race and to attach such importance to its ascertainment as a condition precedent to admission to its halls, implying at the same time that congeniality can be expected to lie only within racial circles—this is a serious matter. This application blank and all its working in the university will create prejudice faster than any incidental contact of races could create it. This recognition dignifies racial snobbishness. Those who are inclined to think of themselves as more deserving, by the mere accident of race, than their fellow students will begin to think and think logically. "If it is more congenial to have separate dormitories or separate dormitories, or separate parts of dormitories, then would it not be still more congenial to have separate classes, separate campuses, separate libraries and study rooms, separate universities?"

And these perfectly logical reflections will not make things more congenial but less congenial at Columbia. That is the way in which all wrong principles and practices act. They tend to increase by recognition and by the opportunity to function. Slavery

an inch and they will take an ell, and will demand the ultimate.

It would have been much safer and better for Columbia University to have taken a more positive course to promote congeniality; for example, by saying: "Any group of men or of women students who would like to take any number of rooms or any dormitory space together for their mutual congeniality, will be allowed to do so on proper application." That would leave room for individual liberty and for real congeniality. A Jew and a Gentile would often choose each other's company under such a privilege; or a Russian and a Hariemite; or a Negro and a Teuton. But discrimination along the line of race points us back toward the Middle Ages.

HOOSIT?

21. One morning in December, 1863, the U. S. S. Planter, with Capt. Nickerson in command, sailed thru the Island Creek, whereupon the Confederate batteries at Secessionville opened a murderous fire upon her. Capt. Nickerson became demoralized, left the pilot house, and fled to the coal bunkers. A Negro who was on deck seeing the captain run, took *command* of the boat and carried her safely out of the rangs of the guns. For his conduct he was promoted by orders of General Gillmore to the rank of *captain, and* was placed in command of the 'Planter' which position he held until 1866, when the 'Planter' was put out of commission and sold. RACIAL CLASH PREDICTED IN PHILADELPHIA

or much farther South there would be no cause for alarm. The activities in the underworld would be more particularly watched by the authorities, without regard to racial preference. But this is Philadelphia—half South and half North.

Next year there will be thousands of high roller colored men from the North down here. There will be thousands of low roller white men from the South here, too—and all the in-between.

And unless the ministers, newspapers and public citizens get busy about this situation before warm weather comes again the old Riot setting ben will hatch out such a brood as the country has never witnessed before.

One guess will answer which side the Philly police are likely to take. And the Philly Negroes have not a reputation for fighting anyone except Negroes.

This is an excellent time to think and act.

Are the Riffians who are now fighting the French, a Negro race?—B. G. C., Albuquerque, N. M.

The Riffians are Moors and the Moors are predominantly of Negro blood. They are Mohammedans and in the history of the spread of this religion, the black Moors carried it into Spain and there established the Moorish civilization. There has naturally been much mixture of blood along the northern coast of Africa and while quite fair, Moors will be found among the population, the majority of them are very dark as have been their ancestors throughout generations.

Just what is the Ku Klux Klan?—F. G. D., Gary, Indiana.

The Ku Klux Klan is a secret organization of international character founded for the purpose of perpetuating the rule of so-called Anglo-Saxon races. It has rather a formidable program which is being carried out very rapidly and effectively. The outline and plans of the Klan are a remarkable study in psychology and human government and are worthy of deep research by those who are interested in the knowledge of politics and governmental processes.

ONCE POOR BOY IS OWNER OF VAST ESTATE IN PA.

PHILADELPHIA, Sept. 2.—One of the show places of America is the vast estate and the home of John D. Gibson, a colored theater owner of this city, whose fortune is estimated at over a million dollars.

Mr. Gibson's home is located in an exclusive residential area of the suburbs. The name "Elmira" designates the location of this forty-seven acre estate with its tidy lawns and beautiful flower gardens, in the midst of which stands a stately mansion.

Among the favorites of Mr. Gibson's estate is a number of blooded horses in which he takes great pride, and a hand-made buggy which he prefers as a conveyance even over the three Pierce-Arrows and a Packard among his fleet of private automobiles that fill the great garage on the Elmira estate.

Inside the Gibson mansion are over a score of rooms, including a reception hall and library. The rarest and finest of furnishings are found precisely and neatly arranged in every room. It is truly a "home beautiful."

The master and mistress of "Elmira" are noted for their hospitality. An open door and a welcome is always found there for the good of the race.

Mr. Gibson was awarded an LL. D. by his alma mater, Morgan College, last spring. He owns the New Dunbar theatre and the New Standard Theatre in this city.
